<b>Project Name:</b> .....	<b>1</b>
<b>UN Global Challenge Addressed:</b> .....	<b>1</b>
<b>Project Description:</b> .....	<b>2</b>
Brief summary of the problem or need.....	2
How an app could help address this issue.....	2
Target users and beneficiaries.....	2
<b>Potential Community Partners:</b> .....	<b>2</b>
List any nonprofits, agencies or leaders that could sponsor this project.....	2
<b>Research Conducted:</b> .....	<b>2</b>
Overview of background research done related to this problem/issue.....	2
Data, interviews, or observations that demonstrate the need.....	2
<b>App Features:</b> .....	<b>2</b>
Key features and functionality an app could provide.....	2
<b>Development Feasibility Assessment:</b> .....	<b>3</b>
Estimate of timeline and scope.....	3
Technical capabilities needed.....	3
Major risks or limitations.....	3
<b>Expected Impact:</b> .....	<b>3</b>
The positive outcomes an app could drive for users and the community.....	3
Estimate of the number of people helped.....	3
<b>Recommendation:</b> .....	<b>3</b>
Summary of why this project should/should not be pursued.....	3
What makes it worthwhile and high-potential.....	3

Project Name:

UN Global Challenge Addressed:

- ☐ **Climate change** - Reducing greenhouse gas emissions, transitioning to renewable energy, and supporting climate adaptation/resilience.
- ☐ **Biodiversity loss** - Protecting ecosystems and preventing mass extinction of plant/animal species.
- ☐ **Sustainable development** - Ending poverty, reducing inequality, and supporting affordable access to food, water, healthcare, and education.
- ☐ **Gender equality** - Ensuring equal rights, opportunities, and participation for women and girls.
- ☐ **Public health** - Improving access to vaccines, medicines, health services, and nutrition, especially in developing countries.
- ☐ **Humanitarian crises** - Providing emergency aid and support to communities impacted by conflicts, disasters, and displacement.
- ☐ **Peacebuilding** - Preventing and resolving violent conflicts, reducing global military spending, and controlling arms proliferation.
- ☐ **Human rights** - Upholding civil, political, economic, social, and cultural rights for all people without discrimination.
- ☐ **Digital cooperation** - Bridging digital divides, balancing tech regulation, and using ICTs to achieve development goals.
- ☐ **Youth empowerment** - Tapping the potential of youth through education, employment, and leadership opportunities.
- ☐ **Fair economic growth** - Promoting inclusive and sustainable economic policies that reduce poverty and inequality.
- ☐ **Migration governance** - Protecting the rights of migrants, supporting refugee resettlement, and addressing root causes.
- ☐ **Accessible technology** - Expanding access to affordable technology and reducing barriers for persons with disabilities.
- ☐ **Quality education** - Improving access to inclusive, equitable education and lifelong learning opportunities.
- ☐ **Decent work** - Promoting fair labor practices, safe working conditions, and opportunities for productive employment.
- ☐ **Responsible production/consumption** - Encouraging sustainable production patterns and consumer habits.

- ☐ **Partnerships for the goals** - Strengthening partnerships between governments, the private sector, and civil society.

## Project Description:

Brief summary of the problem or need

How an app could help address this issue

Target users and beneficiaries

## Potential Community Partners:

List any nonprofits, agencies or leaders that could sponsor this project

## Research Conducted:

Overview of background research done related to this problem/issue

Data, interviews, or observations that demonstrate the need

## App Features:

Key features and functionality an app could provide

## Development Feasibility Assessment:

Estimate of timeline and scope

Technical capabilities needed

Major risks or limitations

## Expected Impact:

The positive outcomes an app could drive for users and the community

Estimate of the number of people helped

## Recommendation:

Summary of why this project should/should not be pursued

What makes it worthwhile and high-potential
